

Table 3: Importance of each topic for each specialty as rated by students, specialty faculty and anesthesiology faculty.

	Emergency Medicine			Obstetrics & Gynecology			Family Medicine			Internal Medicine			Pediatrics			Psychiatry			Radiology			Surgery		
	S	F	A	S	F	A	S	F	A	S	F	A	S	F	A	S	F	A	S	F	A	S	F	A
Acute Pain Management	**	**	**	**	**	**	**	**	**	**	**	**	**	**	**	**	**	*	**	**	**	**	**	**
Acute Decompensation Management	**	**	**	**	**	**	**	**	**	**	**	**	**	**	**	*	*	*	*	**	*	**	**	**
Vascular Access & Fluid Management	**	**	**	**	**	**	**	**	*	**	**	**	**	**	**	*			**	**	*	**	**	**
Non-invasive Monitoring	**	**	**	**	*	*	**	*	**	**	**	**	**	**	**	*	*		**	**	*	**	**	**
Conscious Sedation	**	**	**		*	*		**	**	*		**	**	**	**		*		*	**	**	**	**	**
Cardiopulmonary Physiology	**	**	**	**	*	**	**	**	**	**	**	**	**	**	**	*			*	*	*	**	**	**
Airway Management	**	**	**	*	*	*		**	*	**		**	**	**	**	*			*			**	**	**
Arterial Blood Gas Interpretation	**	**	**	**	*	**	**	**	*	**	**	**	**	**	**	*						**	**	**
Chronic Pain Management	*	*	*	**	**		**	**	**	**	**	*	*	**	*	**	**	**				**		**
Preoperative Assessment	*	*	*	**	**	**	*	**	**	**	**	**	*	**	**				*	*	**	**	**	**
Mechanical Ventilation	**	**	**	*			*	**		**	**	**	**	**	*							**	**	**
Invasive Monitoring	**	**	**	*			*	*		**	*	**	**		*				**	*		**	**	**
Regional Anesthesia	**	*		**	**	**	*	**	*	*			**					*	*		**	*	**	**
General Anesthesia			*	**	**	*		*	*			*	*	*	*							**	**	**

S = Students, F = Specialty Faculty, A = Anesthesia Faculty  
 \*\* = >75% considered the topic somewhat or very important  
 \* = 50-75% rated the topic somewhat or very important
